Kauffman Center for the Performing Arts in Kansas City, Missouri, proudly built by JE Dunn Construction #JEDunnBuilds

facts about KAUFFMAN CENTER FOR THE PERFORMING ARTS:

- Features 48,000 square feet of glass in the atrium.
- Uses enough electricity to power 350 houses.
- Features 5,000 light fixtures.
- Required 108,000 pounds of steel to construct.

Solve the PROBLEMS!

If you are building 50 houses with three light fixtures in each house, how many light fixtures will you need to purchase?

Answer: _____

If all 50 of your houses need 200 pounds of steel each, what is the total number of pounds you will need to purchase?

Answer: _____

Saint Luke's

Opera is musical storytelling!

**Complete the story by filling in each blank according to the prompt below it.
When you've finished, try singing the story out loud to your favorite tune!**

Once upon a time, in a _____ far away, a _____ loved
_____ ing every day. They lived in a _____ with their
best friend, a _____ named _____.
One day, while _____ ing, they discovered a _____. A note was
attached. It read:

“To find your destiny, you must _____ the _____ before sunset!”

Filled with _____ determination, they set off on their journey.

They _____ ed through the _____, _____ ing past
anyone who tried to stop them. But nothing could stand in their way!

At last, they arrived at the _____ of destiny, where they had
to _____ to unlock the secret within.

Suddenly, the sky burst open with _____ light, and a _____ sang a
final note that echoed through the air.
